Projects
LearnStreet believes that the best way to learn programming is by doing. That's why we've built Code Garage, a place for you to tinker with code and work on cool coding projects in Python, Ruby, or JavaScript.
Apply what you've learned in our courses to build practical applications. Code Garage projects provide you with existing code as well as methods that you have to complete, armed with your knowledge from our courses. Stay tuned as we continue to expand our library of Code Garage projects!

TEACH CODING TO YOUR STUDENTS FOR FREE

Get started in minutes!

Assign Courses

Your Students Will Learn How To:

- Understand the fundamentals of key coding concepts
- Recognize essential coding phrases and definitions
- Think logically and critically
- Become comfortable with coding in a Code Editor

Assign Courses

- Courses Include: JavaScript, Ruby, Python
- Over 60+ hours of engaging content
- No coding knowledge needed or special software required

Assign Now

Assign Projects

- Students solidify coding knowledge through real-world projects
- Projects integrate key concepts from lessons
- Projects Include: Sudoku, Mastermind, Snakes & Ladders

Assign Now

Here's What Teachers Are Saying

I serve as captain for Code for America's Philadelphia brigade and sysadmin to Philly's 1:1 public high school. I've really admired LearnStreet's style since it launched, and would love the ability to stay engaged with all my students.

Chris Alfano
Brigade Captain, Code For America Philadelphia

I am excited to pilot this with some of my students. I can really see this as a great tool for independent work and I know parents will be thrilled to see what their students are learning.

Mike Renne
Technology Instructor, Asheboro High School

I will be a new teacher to programming although I have 35 years of teaching experience. I will be moving up to the high school to teach programming. Your program seems to have everything I need to get started in a stress free way!

Karen Vitek
Technology Educator, Spackenkill Union Free School District
